**Subject:** Thank you for rethinking the Atlantic Coast Pipeline!

Dear Governor Cooper,

I was so heartened to read about your wise delay concerning the totally inadequate application for the Atlantic Coast Pipeline. Thank you for standing up for the environment, and for the many people who depend on those clean streams of Eastern NC.

As you know, what NC needs is more solar power, made affordable for all by new laws allowing "distributed generation" - not more fossil-fuel-dependence (with the attendant, high risk of spills).

Three cheers for you for defending NC's natural heritage of clean streams, which are rich with fragile biodiversity, and for defending the folks in Eastern NC who's livelihood and wellbeing are dependent on those clean streams and on the ecosystem services the precious streams provide.

wth sincerest thanks,  
Marcia
